1 Vision and Goals

— Vision —

Kumamoto University aims to contribute to the community and global society by cultivating intelligent, moral, and skillful people, while working for the creation, inheritance, and development of knowledge, following the spirit of the Fundamental Law of Education and the School Education Law.

— Goals — Education

In order to cultivate unique, creative people, the university provides a comprehensive education based on a consistent philosophy followed by all our undergraduate departments and graduate schools.

Our undergraduate departments, with the help of a broad education, inculcate in students the abilities of international communication, adapting to the information age, and thinking and acting independently.

Our graduate schools cultivate highly specialized workers with comprehensive reasoning ability, technical knowledge, and internationally recognized skills, in addition to deep insight into humankind and nature, on the basis of the undergraduate education that our student receive.

As an institution that is open to the public, the university offers a place where people can engage in lifelong learning.

Research

The university strives to protect and develop humankind's cultural heritage, while enhancing its capabilities to function as a center of advanced academic research and proactively promote cutting-edge, creative academic research.

In addition, by making use of its unique features, comprehensively deepening knowledge in the fields of human science, social science, and natural science, as well as promoting interdisciplinary research, Kumamoto University is working to contribute to the harmonious coexistence of humans and the environment, as well as sustainable societal development.

Contributions to local and global communities

As a university located in a regional hub city, the university will strengthen its cooperation with the local community and serve the functions of being a central research facility and cultivating leaders in the local community. By striving to convey our academic culture to the world, the university will contribute to the promotion of local industry and to advancing the provision of information about the culture.

In addition, the university strives to promote international intellectual exchange, educate international students, and train graduate students capable of producing a bilateral international exchange.

- Based on "InCites Benchmarking" database by Clarivate.
- The analysis target is publications (Articles, Review) from 2013 to 2022.

5 Research

Kumamoto University set 3 support stages, "Globally-advanced," "Excellent" and "Challenging" research projects, to encourage and support according to each stage from project starting to world best research.

Globally-advanced Research

Four Groups, which have been selected for the Global COE program in the past, have established a world-class education and research core, and have develop human resources leading the world. They represent Kumamoto University as the world's highest-level advanced and leading research groups.

Group
International research enhancement project for Stem cell Biology and Developmental Medicine
Collaboration platform for advanced research in viral infections
Research Center Formation Program for Two-dimensional Nanomaterials
The project of integrating research and education for advanced light metals

Kumamoto University Challenging Research Projects

Bold research projects with the potential for revolutionizing established concepts and changing the direction of academia fall within the framework of Kumamoto University Challenging Research Projects. These programs aim to revitalize research that may represent the future of Kumamoto University and are funded for one year.

Cross Frontier Research Grant

This grant supports basic research of interdisciplinary teams that are expected to revolutionize and change the direction of existing academic fields. The aim of the project is to support the creation of research areas that will improve the academic standing of the university as a whole and foster our young researchers.

6 University-Industry Collaboration

Asia Pacific's Most Innovative
Universities 2019 by Reuter

Top **10** in Japan

Joint and Commissioned Research Projects(FY2021)

Kumamoto University promotes joint research projects and commissioned research projects in order to cooperate with the industries with "Kumamoto Innovative Development Organization" as the contact point.

Joint Research Projects **447**

Budget **799,540,000yen**

Commissioned Research Projects **364**

Budget **2,279,130,000yen**

7 Local Cooperation

Volunteer activities

We volunteer in areas affected by the Kumamoto earthquake and heavy rain disasters, revitalize the region, and support children.

8 Global Engagement

International exchange agreements

As a university leading the globalization of the region, Kumamoto University positively promotes exchanges with the top universities in Asia, the United States and Europe under the slogan "A Leading University Cultivating Global Leaders from Kumamoto". We have signed international exchange agreements with 277 institutions in 54 countries/regions around the world (as of May 2023).

International students and Japanese students studying abroad

Among them,
391 students
(82%)
are from Asia.

*only students dispatched to partner universities from more than 3 months to less than 1 year.

Researchers and scholars exchanges

In AY2022, 333 researchers were sent abroad and 379 foreign researchers visited to Kumamoto University.

8 Global Engagement

8 overseas offices 8 countries / regions

Overseas offices are established aiming to service as a base of research and educational exchange, to promote joint researches with foreign researchers and to disseminate information on Japan and Kumamoto University.

8 Global Engagement

TOP GLOBAL UNIVERSITY PROJECT

In 2014, Kumamoto University was selected as one of 37 universities to take part in the Top Global University Project, implemented by the Ministry of Education, Culture, Sports, Science and Technology. Our slogan "A Leading University Cultivating Global Leaders from Kumamoto" reflects educational reforms which aim to transform Kumamoto University into a truly global university and help us become established and ranked as a world-class institution with state-of-the-art research centers.

Select Achievement

Number of KU Global Youth
Campus Program participants

391 (AY2022)

(The KU Global Youth Campus Program aims to develop and provide a global education environment through a variety of learning experiences and events for young people who are preparing for higher education.)

Number of international
double-degree programs

27 (AY2022)

9 University Library

More than
 **1,250,000** books

More than
 **14,000** titles of electronic journals

The University Library is composed of the Central Library, the Medical Library and the Pharmacy Library. Approximately 200,000 visitors borrow 55,000 books in a year.

(April 2022 to March 2023)
